Art Unit: 1771

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicants regards as the invention. More particularly, the claims contain a significant number of informalisms and need to be carefully amended. In claim 1, lines 2 and 3, it is suggested that the claim state whether or not the adhesive and the at least one color former are in the same layer or different layers, and if the latter what is the specific order of the tape layers; this type of comment is also appropriate for the coated three elements set forth in claim 10. Also, in claim 1, next to last line there is no antecedent basis for "said at least one color developer". In claim 3, line 3, it is suggested to use —mixed— in place of "combined". In claims 6 and 15, last line of each, it is unclear what the "at least one color developer" is a member of in view of the comma that immediately precedes these phrases. Claims 11-17 are all dependent upon claim 1, not claim 10, despite their location immediately following applicants' second and last independent claim, and if so claim 11 is a duplicate of claim 2.
3. Claims 1-18 are not rejected on the basis of adverse prior art.
4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note also Yang and Miller et al.
